## Peppaby's - Frozen Piquant Peppers

### Delight in the Bite!

A unique flavour infusing process creates fresh and crisp piquant peppers that are preservative free. Ready to fill with your favourite choice of filling.

- The conventional method for preparing piquant peppers is to cook them in a sugar and vinegar brine. The final product is then preserved in a brine, more often than not with preservatives.
  - The conventional method leaves the peppers soft, sticky and flaky.
  - Consumers are increasingly reluctant to buy products which are cooked and kept in preservative media.
  - Against this background, Peppaby's innovated a unique method of infusing the piquant flavour into the peppers and then cryogenically freezing them.
  - The result of the Peppaby's process is that the piquant flavour is there and so is the fresh crispness of the natural pepper. No texture compromise and no preservative compromise.
  - The peppers retain their shape while frozen and are so much easier to handle and to fill.
  - The frozen peppers form the perfect canvas for any great filling – perfectly formed, non sticky and easy to handle, they are superb stuffed with herb infused cheeses, fish mixes, meat mixes, pates and olives. As versatile as the imagination of the chef!

## Company Profile

Dynamic Commodities, the home of Island Way Sorbet, operates from a state of the art production facility in the heart of the Coega Industrial Development Zone adjacent to the newly developed Port of Ngqura, the 3rd largest export harbour in South Africa. Quality and hygienic food safety are high on our list of priorities and we are certified to the ISO 22000:2005 standard (which includes accreditation to HACCP principles). We also hold international Halaal Certification.

Using the latest technology in food processing, we provide top quality products to our customers, while our clean, modern production facility is equipped with an air filtration system to create a positive air pressured environment within the factory. Dynamic Commodities is a major employer with a staff complement of 600 direct jobs and approximately 1000 indirect jobs via our suppliers. Through this, we have created valuable and mutually beneficial partnerships with the Department of Trade and Industry (DTI), as well as the Industrial Development Corporation (IDC). We are also involved in various Broad Based Black Economic Empowerment (BBBEE) farming initiatives as part of our Corporate Social Investment (CSI) programme.
