

# Galaxy Dried Fruit Processing

**Representative coming to Switzerland:** Mr. Nazar Salman, General Manager

**Webpage:** <http://www.galaxydates.com>

---

## Visit Objectives

The fundamental aim of this visit in Switzerland for us is to achieve good working relationships with importers and wholesalers. The successful outcome of this mission will be beneficial to the local markets as well as creating favorable international partnerships.

---

## Products

We specialize in the manufacture of export **quality block dates**.

Furthermore we are currently in the process of establishing a **date juice** manufacturing plant hence meeting the needs of the growing fruit juice concentrate demand.

Our product is well known throughout the world in general. South Africans in particular have been using the date fruit for several years for the purposes of baking, industrial and home usage.

---

## Company Profile

Galaxy Dried Fruit Processing Cc. was established in 2003 and we have been in the business for nearly 15 years. Our estimated production capacity is 800 tons per annum. We at Galaxy are constantly striving to achieve a superior standard of quality for our products.

Galaxy has the most modernized fully automatic production line, imported from Italy, which **complies with the strict EU standards** whilst our competitors are still on the manual, non-hygienic process line.

Galaxy is BEE compliant thus we have a 21% representation of black women that exists within the black equality and management portion.

We use the most modern machines and to produce the **highest quality block** dates, suitable for cooking and baking.

Our ability to manufacture **products of a high quality** and **unbeatable price** has enabled us to establish a dominant role in the South African market.
